End of Amendment.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: None of the prior art references of record, singly or combined, teaches or suggests a magnetic powder having, in combination, the specific composition, the TAP density, and the specific relationship between coercive force and particle volume as claimed. The JP 2001-357,501 patent (JP'501) does not teach TAP density of the magnetic particle. As shown in the instant specification, unless the magnetic powder possesses the TAP density in combination with the particle diameter or particle volume as claimed, the resulting magnetic powder exhibits magnetic properties (e.g. magnetic density and electromagnetic conversion...) inferior to the magnetic powder having the TAP density within the claimed range. See instant specification, Tables 1-2.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 9:30 a.m. to 6:00 p.m., Mondays to Fridays.
